**DETAILED ACTION**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9, drawn to Computer conferencing, classified in class 709, subclass 204.
  - II. Claim 10-31, drawn to Computer to computer data routing, classified in class 709, subclass 238.
  - III. Claim 32-42 and 43-50, drawn to Computer to computer data streaming, classified in class 709, subclass 231.
  - IV. Claim 51-55, drawn to Priority based messaging, classified in class 709, subclass 207.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions group 1, group II, group III and group IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)).

In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it distinctly relates Computer Network Management. The second subcombination has separate utility such as computer to computer data routing. The third subcombination has separate utility such as computer to computer data streaming and the fourth subcombination has separate utility such as priority based messaging.

The examiner has required restriction between combination and subcombination inventions. Where applicant elects a subcombination, and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

3. A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE THIRTY DAYS FROM THE MAILING OF THIS COMMUNICATION. FAILURE TO RESPOND WITHIN THE PERIOD FOR RESPONSE WILL CAUSE THE APPLICATION TO BECOME ABANDONED (35 USC § 133). EXTENSION OF TIME MAY BE OBTAINED UNDER PROVISION OF 37 CFR 1.136(A).

4. A telephone call was made to attorney of record R. Ross Viguet, registration number 42,203 on August 28, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.
